## Hobbies & Interests

I am an avid reader of fantasy and science fiction, as well as non-fiction like history, science, and biography. I am a member of the chess club at the University of Arkansas and enjoy playing piano in my spare time. I also have an electronic music project for which I have been producing for over a decade; in general, I enjoy anything to do with music, and my favorite genres to listen to are indie rock, electronic, classical, and jazz.
